

Figure 15 displays 11 bar charts showing the percentage of respondents for various categories across different age groups (18-24, 25-34, 35-44, 45-54, 55-64, 65+). The categories are: 1. Total respondents, 2. Male respondents, 3. Female respondents, 4. White respondents, 5. Black respondents, 6. Hispanic respondents, 7. Asian respondents, 8. Other respondents, 9. Married respondents, 10. Single respondents, 11. Divorced respondents. The charts show varying distributions across age groups, with some categories like 'Total respondents' and 'Male respondents' showing a relatively stable distribution, while others like 'Divorced respondents' show a significant increase in the 65+ age group.
